I authorize any health plan, physician, health care professional, hospital, clinic, laboratory, pharmacy, medical facility, Pharmacy Benefit Manager or other health care provider that has provided treatment or services to me or on my behalf within the past 10 years ("my Providers") to disclose my entire medical record and any other information that may be considered protected health information under the Health Insurance Portability and Accountability Act of 1996 ("HIPAA") concerning me to my Representative and its staff, affiliated companies and/or entities, insurance companies and their re-insurers. ## **Employer-Owned Life Insurance Notice and Consent**

The following is a brief summary of the rules that apply to Employer-Owned Life Insurance policies, including buy-sell funding. These rules generally apply to contracts issued on August 18, 2006 or later. These rules also apply to policies issued before August 18th ("grandfathered policies") that undergo material increases in the death benefit or other material changes. Due to the complexity of the new rules, it is not entirely clear how they might apply in certain settings where an employer is not directly the owner or beneficiary of the policy. For example, when life insurance is acquired to fund a cross-purchase buy sell arrangement. In these situations it appears to be prudent to comply with the requirements of the law. While these instructions refer to the "employer" and "employee," the actual Form has been designed for use in both direct employer-owned and indirect employer-owned situations. This summary is not meant to be comprehensive or to cover every situation and should not be construed as tax or legal advice. You should consult with and rely on the advice of your own tax counsel.

*As explained below, if "Notice and Consent" are received and certain Specified Exceptions are met, the death benefit of a life insurance policy owned by and payable to an employer on the life of an employee, will, generally, remain income tax-free. **IF THESE RULES ARE NOT SATISFIED, THE DEATH BENEFIT WILL GENERALLY BE TAXABLE.***

### **I. "Notice and Consent"**

The "Notice and Consent" requirements are satisfied if **before** the policy is issued or **before** there is a material increase or other material change to a grandfathered policy:

1. The employee is notified in writing that the employer intends to insure the employee's life,
2. The employee is notified in writing of the maximum face amount for which the employee could be insured at the time the policy was issued.
3. The employee provides written consent to being insured under the policy and that such coverage may continue after the insured terminates employment, and
4. The employee is informed in writing that the employer will be a beneficiary of any insurance proceeds payable on the death of the employee.

### **II. Specified Exceptions**

In general, if the notice and consent requirements are satisfied, policy death proceeds may be received income tax free (subject to existing Transfer for Value and Alternative Minimum Tax rules) if any of the following exceptions are met:

1. **Recent Employees:** The insured was an employee at any time during the 12-month period before death. (In other words, if the employee is no longer employed by the employer at the time of death, the death proceeds will keep their income tax-free status if death occurs within the 12 months following the date of the employee's employment termination.)
2. **Directors and Highly Compensated Employees:** If at the time of the policy was issued, the insured was:
  - a. a director
  - b. a highly compensated employee under the rules for qualified retirement plans:
    - (a) generally, owner of more than 5% of outstanding or voting stock of the employer (or more than 5% of capital or profits interest if employer is not a corporation) in the current or preceding year; or
    - (b) an employee receiving compensation as follows: for policies issued in 2006, employee earned in excess of \$100,000 in 2005; for policies issued in 2007, employee earned in excess of \$100,000 in 2006, or
  - c. a highly compensated individual under the rules for self-insured medical reimbursement plans, looking at the highest paid 35% of employees (i.e., generally one of the five highest paid officers, or among the highest paid 35% of all employees, or a more than 10% owner by value of employer stock.)
3. **Death Benefits Paid to Heirs:** To the extent that death proceeds paid in the taxable year are received:
  - (a) by a family member of the insured,
  - (b) by an individual who is the designated beneficiary of the insured (other than the employer),
  - (c) by a trust established for the benefit of any such family member or designated beneficiary, or
  - (d) by the estate of the insured.
4. **Buy/Sell Situations:** To the extent that death proceeds are used in the taxable year they are received to purchase an equity (or partnership capital or profits interest) in the employer from a family member, beneficiary, trust or estate.
